OBJECTIVES
Upon completion of this seminar, participants will be able to:

1. Demonstrate the latest examination and intervention techniques for patients with stroke, Parkinson’s disease and gait and balance disorders.
2. Provide detailed explanations of current evidence-based techniques.
3. Prescribe a motivational program to enhance intervention outcomes for older patients with neurological deficits.
4. Differentiate between dementia and depression and provide meaningful intervention modifications for the challenges presented by these diagnoses.
5. Describe normal and pathological changes in the neurological system of an older person.
6. Recognize the different movement disorders commonly seen in older persons.
7. Thoroughly examine a patient with Parkinson’s disease, stroke, or gait and balance disorders utilizing several different functional assessment tools and design an effective intervention program.
8. Compare and contrast various methods of examining patients with stroke, Parkinson’s disease and gait and balance disorders for specific outcomes.
9. Organize and plan an effective rehabilitation program for geriatric patients with stroke, Parkinson’s disease and Balance Disorders.
10. Identify fall risk factors, gait impairments and gait & balance deviations and develop specific approach to assess gait, balance and falls in the older patient using a variety of cutting-edge tools.
11. Create innovative screening and intervention programs for gait and balance deficits commonly seen in older persons.

Feedback From Past Course Participants
"Excellent course – very informative!

“This course made me motivated to use what I learned.”

“Wonderful, evidence based information!”

“Great course! Very interesting and entertaining! Phenomenal course!”

“Dr. Lewis is very dynamic and easy to listen to… kept me interested and engaged!”

“This is a course that all therapists working with geriatric patients should be required to take.

“Great course… worth giving up my weekend for.”

“Excellent course, I was dreading 2 days of sitting, but Carole made it very dynamic and fun!”

“Cutting edge information.”

“Dr. Lewis’ teaching style is fun and inspiring!”
