In 1999, he co-authored the Inpatient Cardiac Rehabilitation Protocol for the open heart surgery program at Northwest Hospital. He has practiced throughout the medical services but has a special interest in cardiological and neurological diagnoses. He has also developed a computer based documentation system for the physical therapy department.

Mark has been a clinical instructor for the last ten years, and has been a guest lecturer for the University of Washington’s physical therapy program. Mark serves on the Patient Safety Oversight, Employee Body Mechanics/Safety and Clinical Documentation Committees at Northwest Hospital. The majority of his current practice occurs in the Intensive Care and Telemetry Units. Mark routinely provides new employee instruction on body mechanics and back safety, as well as educating staff on new patient handling equipment. Mark also served on the ICACHO Preparation Committee in 2002-2003.

Mark Nelson is dedicated to improving the quality and skill level of acute care therapy. His commitment to this field of specialization is evident by his years of service and passion for combining the poignant areas of specialized literature to this exciting area of rehabilitation.

This seminar provides a current update on the latest information in rehabilitation in the acute care setting. As in all practice settings, acute care rehabilitation is continuously evolving. From the various entry points into the acute care setting to discharge, rehabilitation plays an integral role. Therapists are being relied upon more and more to make significant contributions to the medical team, and frequently are the determining factor in hospital length of stay. This seminar is designed to give clinical information for therapists working in, or returning to working in the acute care setting. In addition, the seminar will offer practical tips and higher level problem solving skills that will benefit therapists working in this setting. The seminar will utilize lecture and case study to discuss the role of physical therapy in the acute care setting. Current literature review will be presented to lend strength to decision making in this challenging environment.

Objectives
Upon completion of this seminar, participants will be able to:

1. Effectively execute neurological, orthopedic, and cardiopulmonary rehabilitation in 3 days when the patient is unstable.
2. Produce documentation that meets the needs of all consumers of information in the acute care setting.
3. Formulate the most appropriate and efficient evaluation and treatment plans for acutely ill, neurological, orthopedic and cardiopulmonary geriatric patients.
4. Make sound recommendations for discharge planning using evidence based medicine.
5. Develop skills in reading EKGs and working with patients who have received LVADS, CABG or valve replacements.
6. Describe absolute and relative contraindications for rehabilitation intervention for patients with a variety of diagnoses.
7. Effectively plan treatment based on medical guidelines that will affect patients with neurological, orthopedic and cardiopulmonary problems.
8. Apply safe decision making algorithms to changes in patient’s medical status.
9. Practice “serial examination” and function as a member of the medical team.
10. Describe the climate and continuum of acute care for the geriatric patient.
11. Define the new and evolving role of rehabilitation in the interdisciplinary approach to acute care and fill that role.

Locations
The complete address and location of your course will be provided in a confirmation letter that will be emailed to you at least 3 weeks before the course.

Mark Nelson graduated from Pacific Lutheran University in 1989 with a Bachelor of Arts in biology. He completed physical therapy school in 1993 with a clinical Masters degree from the University of Puget Sound in Tacoma, Washington. He has been a practicing therapist for over 20 years, one year in general outpatient practice, two in subacute/rehab care and the last ten in acute care, serving a predominantly geriatric population.

Description

Registration
AUDECE: Primary Audience - Physical Therapists, Physical Therapy Assistants, Occupational Therapists, Occupational Therapy Assistants, Secondary Audience: Other Rehabilitation Professionals.

LEVEL: This course is an Intermediate level

FEE: The registration fee includes all course sessions, breaks, continental breakfasts, and course handouts.

Des Moines, IA - $545. If postmarked before 5/10/19
San Antonio, TX - $545. If postmarked before 7/10/19
Naples, FL - $545. If postmarked before 8/21/19
Albuquerque, NM - $545. If postmarked before 9/21/19
Woodbury, MN - $545. If postmarked before 10/12/19
Tacoma, WA - $545. If postmarked before 11/12/19

LATE REGISTRATION: Postmarked after the above date requires an additional $35 late fee.

EARLY BIRD: $469 - If completed registration and payment are received by
Des Moines, IA - May 8, 2019
San Antonio, TX - June 5, 2019
Naples, FL - July 12, 2019
Woodbury, MN - September 25, 2019
Tacoma, WA - October 23, 2019

DISCOUNT PROGRAM: Receive $25 off your class registration for each GREAT Seminars Book, Inc. course attended from 2000 to the present up to a maximum of $200.

CONFIRMATION: A confirmation letter will be sent at least 3 weeks prior to the course with local hotel and information upon request of your registration form and fee. If you do not receive confirmation 2 weeks prior to class, please call to verify your registration. Registrations are not confirmed until confirmed. Space may be limited, so register early.

CANCELLATION/REFUND POLICY: Cancellations must be received in writing at least two weeks prior to the seminar date for a full refund less a $35 administration fee. NO refunds will be made after this date.

COURSE CANCELLATION: GREAT Seminars and Books, Inc. reserves the right to cancel a course up to 2 weeks prior to the seminar date. In the event of cancellation of a course only the tuition fee will be refunded in full. GREAT Seminars and Books, Inc. is not responsible for reimbursement of non-refundable airline tickets, lodging, or other related costs.

EDUCATIONAL CREDIT: A certificate of attendance for 20 contact hours of educational activity is granted to those who complete the course. The course has been approved by the Nevada Physical Therapy Board for 20 CEU’s (9 hours of theoretical content and 11 hours of practical content).

GREAT Seminars and Books, Inc. is an Approved CE Provider for PTs and Ptas in NV, NY, TX, and NC. Approved in NM, MO, AL, OK, CA, OR, and 31 other states. This course is an "approved activity" for North Dakota Pts and PT Assistants as it is certified for 24 CEs by ProProvider. (a program of the Federation State Boards of Physical Therapy (FSBPT)). This course has been approved by the Nevada Physical Therapy Board for 2.0 Continuing Education Units (CEUs). A "Continuing Education" (CEU) is defined by the National Board of Certified Physical Therapists as a minimum of 50 contact hours of approved education at the graduate level for the professional charged with the responsibility of providing safe and effective treatment to the patients in his or her charge. This course is also approved by Colorado Physical Therapy Federation State Boards of Physical Therapy (FSBPT). This course has been approved by the Federation State Boards of Physical Therapy (FSBPT). The Colorado Physical Therapy Board for 2.0 Continuing Education Units (CEUs).

EAST COAST: GREAT Seminars and Books, Inc. reserves the right to cancel a course up to 2 weeks prior to the seminar date. In the event of cancellation of a course only the tuition fee will be refunded in full. GREAT Seminars and Books, Inc. is not responsible for reimbursement of non-refundable airline tickets, lodging, or other related costs.
