Pittsburgh, PA
May 4-5

Pensacola, FL
October 12-13

Faculty

Deborra Rodgers, PT, GCS, CEEAA, GTC

Deborra Rodgers received her BS in Physical Therapy from the University of Kansas in 1975. She completed Vestibular Certification in 2007 from Emory University and the APTA. She became a Geriatric Certified Specialist in 2008 through the American Physical Therapy Association. Deborra completed the Certified Exercise Expert for Aging Adults (CEEAA) in 2010 through the Geriatric Section of the APTA. In 2016 she completed and was awarded Geriatric Training Certification (GTC) through Great Seminars. She has served as a rehab director in the areas of long term care, hospital, and home health.

Since 2003, her passion has been geriatric rehabilitation in the home health setting. Deborra taught balance and vestibular rehab to all new employees in her region. She assisted in education and training for the cardiopulmonary, memory care and low vision programs. In this role, she did extensive marketing and community educational presentations.

Community contributions have included facilitating a local Parkinson's Support group for eleven years and assisting a community hospital develop and implement a community total joint education class, including teaching the home health component for several years. Deborra served on a task force with a local Area Agency on Aging to develop and implement community screening events for aging adults.

Deborra currently lives in the panhandle of Florida doing what she loves, providing home health services to her community and helping them "heal at home".

Description

Home Health rehabilitation is an innovative, cost effective and affordable component of delivering quality health care to our aging population in their homes. As a home health provider, therapists have the opportunity to make sustainable differences in the outcomes and lives of our patients. We are provided the opportunity to spend one on one time with our patients, in their environment and with their families and support systems. This unique opportunity takes special skills and training for this ever changing environment.

As a new home health therapist, a seasoned provider, or someone considering home health as a career, this course is designed to provide you with the most up-to-date tools to guide you in evidenced based assessment, interventions and treatment progression. It will provide in-depth training for tests and measures appropriate for the home health setting for evaluating cognition, depression, gait, balance, balance confidence, strength, ADL, MRADL's and aerobic capacity. This course will give you updated information on regulatory and reimbursement issues, homebound documentation, face to face requirements and training for improving your understanding of Medicare's definitions and accuracy with Oasis documentation.

Course handout includes over 350 pages with tests & tools to improve the home health clinician's skills, documentation and functional outcome measurements. The course will include case studies, labs, and a Functional Test Score Summary with specific tests and measures, age and gender norms that you will be able to take home and immediately put into practice.

Objectives

Upon Completion of this Seminar, Participants will be able to:

1. Analyze recommended evidence based test and measurements based on home health impairment categories and integrate into home health practice.
2. Perform appropriate tests and measurements to incorporate efficient and accurate Oasis assessment to adhere to guidelines and definitions.
3. Execute recommended interventions based on the patient's impairment categories, tests and measurements and centered around the patient specific goals and incorporate into home health practice.
4. Create and design innovative treatment plans based on patient goals, impairment categories and consideration for special population integrating with current skills.
5. Identify and understand importance of medication management, side effects, and impact on treatment and effectiveness of plan.
6. Analyze barriers to compliance and formulate how to motivate and impact patient compliance to sustain goals and gains.
7. Incorporate take home tools that you can immediately utilize in your home health practice to justify home bound status and functional progress for better outcomes.
8. Explain regulatory and reimbursement issues and how they impact home health.

Feedback From Past Participants

"This was one of the best overall workshops I have every attended. Deborra was fantastic, truly "GREAT."

"Excellent presentation, Deborra! Thank you for returning to the Midwest to teach this wonderfully informative course!"

"This was another GREAT course and speaker. I appreciate the quality of Great Seminars and have not been disappointed!"

"Thank you! So nice to have a Home Care Specific Course!"

"Very good speaker, kept us engaged throughout the 2 days. Lots of great info presented well. I appreciated hands on activities spaced throughout the day."

"It was nice to see an "intermediate" workshop on homecare therapy. Thank you. I enjoyed Deborra's expertise and the experience she shared."

"Speaker was very knowledgeable about the home health setting!"

"This was an excellent resource for me getting back into home health. Thanks for a wonderful course!"

"Appreciated the instructor preparing the documents in a portable "file folder" binder style, very useful for the field. Succinct, effective. Enjoyed very much. Favorite CEU class thus far."

Locations

The complete address and location of your course will be provided in a confirmation letter that will be emailed to you at least 3 weeks before the course.
