Orthopedic Examination and Intervention for the Older Adult

GREAT Courses for GREAT Outcomes

This live course distills the latest orthopedic information and complicated research into usable clinical interventions. This 20 hour course is equivalent to reading hundreds of current studies while focusing on the usable clinical information.

Dr. Lewis is a master at this!

Here’s what our course attendees say:

“You gave me practical techniques and treatment approaches vs. so many courses lately that just rehash the problems but give nothing to take back to the clinic to improve my skills.”

“Dr. Lewis is exceptional... I learned so much from this course. Every therapist in Geriatrics should take this course!”

“This is an excellent course and I had a great time!”

“We are in a crossroads of our profession. If we don’t get GREAT outcomes, we will have a hard time surviving. This course, focusing on older adults, will help every clinician achieve those goals. We need to take courses like these so we know we are doing the most effective interventions for our ever growing older adult population.”

“This is a course that all therapists working with geriatric patients should be required to take.”

“Dr. Lewis is awesome and has a wealth of knowledge.”

“Thank you for making me a better physical therapist.”

“I look forward to getting to the clinic and putting all this new information into practice.”

“Excellent course. Well paced, very useful material!”

Learn new evidence-based examination and creative intervention techniques for a myriad of orthopedic problems of frail to robust older persons. Dr. Lewis’ all new handout contains all of the seminar slides and thousands of references. This is the most comprehensive geriatric orthopedic course in the country.

OBJECTIVES

Upon completion of this seminar, participants will be able to:

1. Perform specific intervention techniques for dysfunctions of the neck, back, shoulders, elbows, wrists, hands, hips, knees, and feet of older persons including orthopedic, neurological, rheumatological, psychiatric, activities, mobilization and numerous evidence-based protocols.

2. Select evidence-based interventions and outcomes measures for a comprehensive evidence-based rehabilitation approach for a myriad of orthopedic problems affecting older persons.

3. Discuss intervention modifications to existing rehabilitation and notes simple ways of using specific manual techniques and practiced in the course programs for a specific orthopedic problem.

4. Comprehensively examine orthopedic dysfunctions in the neck, back, shoulders, elbows, wrists, hands, hips, knees, and feet of older persons.

5. Design individualized rehabilitation programs for specific orthopedic problems such as rotator cuff, osteoarthritis, total hip and knee procedures, fractures, osteoporosis, lumbar stenosis, and other pathological disorders in older persons.

6. Create the optimum environment for working with older persons.

7. Demonstrate competence in over 20 different manual techniques for use with older persons.

8. Comply and explain how to use 20 different evidence-based therapeutic exercises for numerous orthopedic conditions based on the latest evidence.

10. Use the immense handout in daily practice as a user-friendly reference for norms, evidence-based tests and evidence-based protocols.
Upon completion, participants will be familiar with the body of evidence for geriatric orthopedics and will learn an evidence-based approach to treatment. Participants will be able to use the present up to a maximum of $200. In order to receive a discount, a copy of each course certificate must accompany registration forms. No discounts will be taken once registration is completed. Additional codes may not be used with the certificate discount program.

CONFIRMATION: A confirmation letter will be sent via email at least 3 weeks prior to the course with local hotels and travel. If you do not receive confirmation 2 weeks prior to class, please call to verify your registration. Registrations are not guaranteed until confirmed. Space may be limited; no regular early bird discount.

CANCELLATION/REFUND POLICY: Cancellations must be received in writing at least two weeks prior to the course date for tuition refund less a $75 administrative fee. NO refunds will be made after this date.

COURSE CANCELLATION: GREAT Seminars and Books, Inc. reserves the right to cancel a course at least 2 weeks prior to the course date. In the event of a course cancellation only the tuition fee will be refunded in full. GREAT Seminars and Books, Inc. is not responsible for reimbursement of non-refundable airline tickets, lodging, or other related costs.

EDUCATIONAL CREDIT: A certificate of attendance for 20 contact hours of education ($200 CEUs or 2 CEUs depending on how your Practice Act determines CEUs in your state) will be awarded to registrants upon completion of the seminar. GREAT Seminars and Books, Inc. is accepted as an CE provider for PSAs and PTAs in MI and TN for 20 Clinical Contact Hours. Have applied for approval in OK and OH. This course is approved by the Florida PT Association for 24 continuing education hours. This 20 contact hour course meets the criteria of the Alabama Board of Physical Therapy for an acceptable continuing education activity. Our course also meets the guidelines for approval in PA, GA, MA, MN, NY, VA, AZ, DE, NJ, OK, RI, WI and MO. Courses are accepted for CEUs in NE in ID, MT, WA, CT, IA, and ND.
